DATA COLLECTION INFORMATION SHEET

Kilvington is required to collect data each year for the Department of Early Education and Childhood Development (DEECD). It is vital that this data is accurate as it impacts upon the funding the school receives. When completing the attached Data Collection form, it is vital not to over or understate your occupation as this is the key factor in deciding the funding each child receives. Please read each Occupational Category carefully.

For example, if you are self-employed you are classified Category 2 – Owner/Manager.

Student Family Occupational Data is used by DEECD as a measure of relative socio-economic disadvantage. It was developed in response to a belief that a strong predictor of student educational outcomes is the student's family background and that parental occupation is the best measure of this. The data used to allocate equity funds to schools and is targeted at those students whose readiness to learn is affected by a range of circumstances, including prior educational experiences and family or other personal circumstances.

See list of Parental Occupation Groups on page 2 and 3.

Please complete your Data Collection Form, with the addition of Parental Occupation Groups (question 6), and submit to Admissions by Monday 16 October 2017.

We thank you for your time with this.
